

# $\mu$ RS Instrumentation Status

- All PMTs are tested.
- All components are ready.
  - PMTs
  - Bases (may need to separate)
  - Paddles
  - Brackets (steel rod may still need cutting)
- I am ready & willing to get started on putting these things in, but I haven't done this before – I shouldn't be trusted to do it alone!

# Animal Fact Friday

Snakes' hearts can move, to avoid being squashed when they swallow particularly large prey.
